**Costing Adolescents and Young People (AYP) Program
on HIV and Related Comorbidities**

January 2021

CONCEPT NOTE

COSTING ADOLESCENTS AND YOUNG PEOPLE (AYP) PROGRAM ON HIV AND RELATED COMORBIDITIES

1. Background

Over the past three decades, AIDS has continued to be a huge burden economically and socially around the world and particularly in Sub-Sahara Africa. Whereas tremendous progress has been made in addressing the epidemic, available resources are increasingly dwindling due to global recession, competing priorities and emerging challenges including the COVID-19 Pandemic. This calls for scaling up in resource mobilization and efficiency in utilization of available resources. Apart from being a heavy burden on the general population, the HIV epidemic in Sub-Sahara Africa and Kenya, has particularly been a heavy burden among Adolescents and Young People (AYP). In addition, AIDS has been the leading cause of death among Adolescent and Young People in Kenya.

As a result of these trends, since 2015, there has been renewed focus on Adolescents and Young People starting with the launch of the 'All-In' Global Campaign in Kenya, by H.E. President Uhuru Kenyatta. This provided an impetus for a coordinated multi-sectoral response to reach adolescents and young people and accelerate the response to end new HIV infections, AIDS related deaths and HIV related stigma and discrimination. The need for deliberate efforts to address the needs of Adolescent and Young People, including mental, economic, spiritual and social needs, was identified. In addition, the need to engage and build the capacity of Adolescent and Young People and their networks in addressing HIV while also addressing their needs was further identified. This led to development of the Adolescent and Young People HIV Response Acceleration Guide 2019-2021 by the Ministry of Health, through the National AIDS Control Council (NACC).

The Guide, which is currently under implementation, was developed following engagements and consultative processes from the National Adolescent and Young People HIV Prevention Stock-Taking meeting held in May 2018. The aim was to guide service delivery for AYP to facilitate them live healthy and productive lives. The guide targets Adolescent and Young People aged 10-24 years and has the following goal and objectives:

Goal: To fast-track the HIV response to end new HIV infections, AIDS related deaths and stigma and discrimination in adolescents and young people

Objectives:

- i. To reduce new HIV infections among adolescents and young people by 40%.
- ii. To reduce AIDS related deaths among adolescent and young people by 25%.
- iii. To reduce stigma and discrimination by 50%.

To facilitate attainment of the goals and objectives of the Guide, a Core Package of Age Appropriate Services has been defined (see Annex 1 and 2 below) and is currently being implemented. However, though great progress has been recorded much remains to be done as AIDS remains the leading cause of death and morbidity among Adolescents and Young

People (AYP), with approximately 35% of all new HIV infections being among the AYP aged between 15 and 24 years; and by 2019, a total of 91,634 Adolescents (10-19 years) and 145,471 young adults (15-24 years) were living with HIV. Furthermore, in thirteen (13) counties, new HIV infections among this age category contributed 40% and above of all new HIV infections. These counties are Turkana (44.7%), Kakamega (43.5%), West Pokot (43.2%), Wajir (42.9%), Narok (42.2%), Trans Nzoia (42.1%), Elgeyo Marakwet (41.5%), Marsabit (41.2%), Migori (41.2%), Nandi (41%), Kitui (40.2%), Garissa (40%) and Busia (40%) (2020 HIV Estimates).

Consequently, the AYP remains a priority population with regard to reduction of new HIV infections. Among the issues to be addressed among this population group include the prevalent low risk perception of HIV and behaviour change towards casual sex with multiple partners (or more partners in a shorter period of time); and cross-generational sex. The risky sexual behaviour among the AYP has further led to high levels of adolescent and teenage pregnancies.

The Kenya AIDS Strategic Framework 2020/21 to 2024/25 (KASF II) identifies Adolescent and Young People as one of the Priority Populations, and further recommends interventions that enhance AYP-Centered and a multi-sectoral approach, and especially for adolescent girls and young women, to address the multiple risks and vulnerabilities they face with a focus on priority counties. Implementation of the Guide therefore remains a priority. However, effective and efficient implementation of the Guide requires costing of the Core Package of Services to lay the foundation for focused resource mobilization, efficient resource allocation and implementation. The *UNAIDS Guide 2016, HIV prevention among adolescent girls and young women: Putting HIV prevention among adolescent girls and young women on the Fast-Track and engaging men and boys* provides recommendations on costing the Core Service Packages in managing prevention programmes for adolescent girls and young women which need to be customized and applied as appropriate in the Kenyan context with regard to costing the AYP Core Package. To facilitate this, the services of a costing consultant are required. NACC therefore seeks to procure a consultant to cost the Core Service Package of Services under the AYP Acceleration Plan/Guide using appropriate methodology and best international practice that is customized for the Kenyan context. The costing data will inform decision makers both nationally and at county level in resource mobilization and allocation for effective and efficient implementation of the Guide to facilitate attainment of the set goals and objectives.

2. Objectives for the AYP Costing

The key objectives of the costing work are as follows:

- i. To determine the cost components and unit costs of individual interventions of the Core Package, broken down by level of service delivery and by county.
- ii. To determine the total cost of providing individual interventions of the Core Package to meet the targets set, broken down by county and year.

- iii. To determine the total cost of delivering the entire Core Package to meet the targets set, broken by county and by year.

3. Specific tasks to be undertaken

The specific tasks for the costing assignment include the following:

- i. **Inception phase:** Develop an Inception Report detailing the proposed methodology and workplan, the key literature that will be reviewed, data sources, software to be used in the analytics and storage of the data and outline of the report detailing how each objective will be addressed and outline of a policy brief.

Further undertake the following;

- a) Secondary data collection and analysis for the different objectives as per the approved methodology.
- b) Sampled Primary costing data granulated to county level.
- iii. **Report writing:** A report that outlines cost components of each intervention and unit costs for each intervention of the Core Package; cost of each intervention of the Core Package broken down by county and year; and total cost of delivering the entire Core Package to meet the targets set, by county and by year. A draft report will be submitted to NACC and further presented to stakeholders and partners for feedback and inputs before being finalized taking into account inputs from Stakeholders, Partners and NACC.

- i. Inception Report to be approved by NACC.
- ii. Draft Report on Costing AYP Core Package submitted to NACC and further presented to stakeholders and partners for review and feedback.
